- Organizational

WORK EXPERIENCE

Data analyst,
CAPGEMINI TECHNOLOGIES PVT LTD.
BANGALORE
2021 – present

Data Analyst in Capgemini for Business Intelligence, to provide a quality reporting for the clients as per the requirement. On A ETL tool Data Services Application consultant as a role.

- **BD_AM BI**
  OFFSHORE SUPPORT & DEVELOPER
  12 Months

BD – Becton Dickinson, A Medical Technology company, The Main role was an support to the Business units for the reporting in backend of ETL and SAP Data services as a tool.

Along with the support, as per the client's requirements Team had a development of transforming the data from different sources and different target systems, for the new BODS Jobs creations and modifications. The lead role of Migration of BODS Jobs schedules from one tool to another tool (3rd party scheduler apps for BODS Jobs) bought me the confidence of the leading nature.
Automic UC4 – the tool for scheduling the BODS Jobs to run in real time

Apart from Development and Support, Team had an administrative activity of installation of new servers from scratch and migrate the Jobs from one server to another server and made me confident of taking the role of administration on it.

CERTIFICATIONS

- AWS Certified Developer – Associate
- Azure DataBricks
- Full stack Java Certification
- SQL for Data Science Certification
- Hacker Rank SQL Certification

- **AUCE_BEGA_AMS Support**
  OFFSHORE SUPPORT
  10 Months

  BEGA groups are a group of organization dairy and drinks with vast domain, in technical reporting perspective of the project which I was working on is to provide a valid and quality of data for sales, materials, COPA, customers, configuration and many followed by. And my role was to migrate those data from ECC system to Hana system for reporting through Data services module using some transforms.
  Daily Monitoring of Data services, Investigation on issues in data qualities in Hana, checks with flows in ECC end to reporting end, Error handling in data Services.
  The support for The ETL tool Data services, got a good analysis skill to go to the root cause of the issues and find the resolutions of the problems.

- **AS_SAP_ CRESCO LABS**
  OFFSHORE DEVELOPER
  4 Months
  Cresco Labs is an organization producing and distributing multistage cannabis for the medication and other purposes, in technical perspective of the project we had to maintain the data of each material The different material master, vendor master and customer masters has tags and divided into Fert. Non-Fert, HALB, RAW, serv, VERP… We do the mapping, transformation and migrate the data using the LTMC, this project gave me the potential of leadership to deliver the excellent GoLive
  My role in this project was to handle the migration of data using LTMC in SAP logon tool. Creation of demo data for Material and Vendor master with the help of functional team. Mapping of fields in template and Error Handling while data Migration.
  The role Developer for an ETL tool LTMC in SAP Fiori tiles was a strength role for my start.
